Two good men had been - two others were  
seen, one over the hill another in the wood. They  
were both very old men - they were  
two old men who had been - two others were

Two old men who had been - two others were

and the <sup>the</sup> wood was a long time ago cut down  
and the house built on the same spot.  
The house was built by a local lumberman, who  
had a large family and a lot of work to do.  
He had a team of horses and a wagon, and he would  
travel from town to town, buying lumber and  
other supplies. He would then bring them back to his  
house and use them to build his home.  
He would spend many hours each day working on  
his house, and he would often work late into the night.  
He would also spend time with his wife and children,  
and they would all help him with the work.  
The house was built with care and attention to detail,  
and it became a place where the family could live comfortably.  
The house was a simple structure, but it was well-made  
and it served its purpose well for many years.  
The family lived there for many years, and they were  
very happy in their home. They enjoyed the  
company of their neighbors and the beauty of the  
surrounding landscape.

as in who; a man who is living his life - But  
he can never be free - unless he makes  
his life - a life of freedom - and he can do  
what he wants to do - but he can't do what  
he wants to do - if he is not free - and he can't be  
free if he is not free - but he can be free if he  
is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -  
but he can be free if he is not free - but he can't be free if he is not free -
